Blessing over the Bread

The bread made from the five species of grains specified by our sages, wheat, barley, rye, spelled and oats, requires the blessing "Hamotzi". To be considered bread, the main liquid ingredient must be water and must be baked. The dough that uses more oil or fruit juice than water, such as cakes, or dough that is fried or cooked, such as pasta is not considered "bread."

Baruch ata Adonai, Eloheinu Melech ha-olam,
